Organisational chart

Company personnel

- Mining engineers
- Geologists
- Physicist
- Chemical engineer
- Environmental engineer
- Technicians
- Accountants

Our product range

Measuring instruments

- Geotechnical
- Seismic & acoustic
- Hydrological & meteorological
- In situ geotechnical & non-destructive
- Geophysical

Special construction equipment

- Grouting equipment, pumps & packers
- Mining cap lamps & systems
- Well & borehole cameras
- High pressure breaking systems
- Drilling & surveying equipment

Our suppliers

Studio
Prof. Marchetti Srl

Services we provide

- Spare parts supply
- Check & repair
- Calibration
- Maintenance

After-sales
services

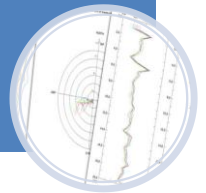

- Installation
- On-site support
- Measurements
- Training

On-site
services

- Seismic & geotechnical monitoring
- Blast & vibration studies

Monitoring
& studies

Our equipment

Inclinometer
measuring system

Seismographs for
blasting & vibration
monitoring

Water level
indicators & other
geotechnical
measuring devices

Sound level meters
for noise monitoring

Laboratory
equipment & tools
for instrument
check & repair

Off road vehicles for
on-site services

Our clients

Public sector

- Public Power Corporation
- Institute of Engineering Seismology and Earthquake Engineering
- National Natural Gas System Operator
- Water Supply & Sewerage Municipal Companies
- Universities & Technical institutes

Private sector

- Construction companies & Big contractors
- Mining companies
- Cement Industries
- Geotechnical Consultants
- Civil Engineering Consulting companies
- Individual contractors

Company & product promotion

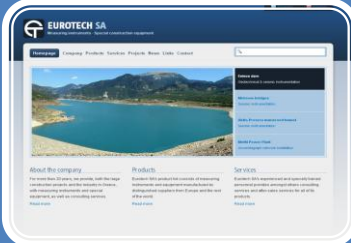

Technical exhibitions

- METEC Machinery exhibition

Conferences & Workshops

- Soil Mechanics & Geotechnical Engineering European conference
- Nanotechnology Expo conference
- National Dam & Reservoir conference

Website

- Product presentation
- News & announcements

...and, of course, our high-quality products and customer service!

Monitoring projects

Dams

Geotechnical & Seismic instruments supply & installation in more than 20 dams all over Greece

Tunnels

Geotechnical instrumentation in motorway and railway projects

Bridges

Geotechnical & Seismic instruments supply & installation in motorway and railway projects

Monitoring projects

Metro lines

Geotechnical & Seismic monitoring in Athens (Lines 2 & 3) and Thessaloniki (Extension to Kalamaria)

Trial embankment

Geotechnical instrumentation & monitoring in railway or motorway projects

Slope monitoring

Slope monitoring instruments supply & installation in motorway projects or pipeline networks

Monitoring projects

Natural Gas & Oil Tanks
Geotechnical & Seismic
instrumentation in LNG
Tanks in Revithoussa
isl. and Motoroil
terminal tanks

**Structural Health
Monitoring**
Geotechnical & Seismic
instrument supply &
installation for the
immersed tunnel
Aktio-Preveza

Seismic Networks
Instrument supply for
the Institute of
Engineering Seismology
and Earthquake
Engineering
